

SafetyAid

Crime Prevention for Older Manitobans*

What is the SafetyAid program?

SafetyAid is a crime prevention program that helps prevent break and enters and gives seniors a greater sense of safety and security in their homes. SafetyAid also provides material on how to prevent falls.

The SafetyAid program consists of the:

- SafetyAid team
- SafetyAid forgivable loans through Home Adaptation for Seniors' Independence (HASI)

SafetyAid Team

The SafetyAid team has its own clearly marked, fully equipped van. The van will come to your home to do a home safety audit and a falls prevention audit. The van is staffed with an experienced tradesperson. If needed, the tradesperson will install security devices and provide falls prevention items.

How can I identify the SafetyAid Team?

The team will carry official SafetyAid identification cards that have the Age & Opportunity logo, the SafetyAid name and the staff person's name and picture on it. If someone comes to your home without this identification, do not let them in your house.

What is a home safety audit?

The team will come to your home and provide some simple safety tips to make your home safer and to prevent a fall.

What safety devices does the SafetyAid team offer?

The team can install deadbolts, peepholes, swing bars, smoke alarm batteries and extra address numbers. The team also provides falls prevention material: non-slip bath mats, nightlights, flashlights, fluorescent stair tape, salt for sidewalks and ice grip tips for canes.

How much does it cost?

This program is free for eligible seniors.

Who is eligible for an audit and free safety devices?

Seniors 65+ who live in the community and have a net income below \$25,000 if single or a combined net income of less than \$30,000 for couples. Victims of a break and enter or home invasion will receive first priority.

Seniors who exceed the income levels are eligible for free safety and falls prevention audits.

Who sponsors this program?

SafetyAid is funded by the provincial government. The provincial government is pleased to work with Age & Opportunity and local law enforcement, health and seniors groups to provide this program.

FOR SENIORS IN MANITOBA: SafetyAid Forgivable Loans Through HASI

As part of the provincial government's SafetyAid program, low-income seniors who wish to do minor home adjustments can apply to the Home Adaptation for Seniors' Independence (HASI) program. HASI helps

homeowners and landlords pay for minor home adaptations to extend the time low-income seniors can live in their own homes independently. HASI provides eligible seniors with forgivable loans of up to \$3,500.

This program is available throughout Manitoba.

Tips for Securing Your Home

Seniors can greatly reduce the risk of break and enters by following these security tips:

- Do not open your door to strangers. If you are unsure or do not recognize the person, do not open your door. Make some noise or turn on the lights so the person knows someone is home.
- Install one-inch deadbolt locks.
- Keep your doors locked and windows secure at all times whether or not you are in the house.
- If keys are lost, change the locks.
- Get a door peephole.
- Do not hide keys around the house.
- Surround your house with good lighting.
- Keep your trees and shrubs trimmed so you can see what's going on in your yard.
- If you return to your home and see it's been broken into, do not go inside. Call the police immediately and wait for them to arrive and check your house.

Falls Prevention Tips

- Be aware of medications that cause dizziness.
- Wear properly fitting shoes and slippers.
- Keep your house and yard free of debris and hazards.
- Properly install grab-bars in the bathroom for support.
- Ask for help from friends or family when doing heavy, strenuous or potentially dangerous work around your home.
- Use prescribed and proper fitting aids for walking, balancing, seeing and hearing as required.
